

Form

Uncompromising design and impeccable comfort

normann

C O P E N H A G E N

Perfect shape and endless possibilities

Form tells the story of a design company and a designer with the vision of creating the perfect chair. A tribute to form itself, the uncompromising design combines a strong design idiom with comfortable curves and an innovative industrial technique. The sleek mounting solution developed especially for the Form chair creates a natural integration between seat and base and makes it possible to mount different types of bases in the same openings. While retaining a homogenous and aesthetic design, the Form chair can be customized from more than 75.000 possible combinations of models, colors, textiles and bases, offering a wealth of opportunities for creative expression.

Form

Product Facts

Description

Form is a contemporary chair series offering impeccable comfort and a strong design idiom. The unique connectors developed especially for the Form series create a smooth transition between the seat and frame, while making it possible to seamlessly adapt the chair to various kinds of leg types.

Designer / Year Of Design

Simon Legald / 2014

Material

Shell: Polypropylene / Polypropylene with upholstery

Legs: Powder coated steel / Chrome / Brass plated steel / Powder coated aluminum / Lacquered oak / Lacquered walnut / Painted and lacquered oak

Construction

Form is delivered assembled. The molded connectors match the legs in color, creating a seamless transition from legs to shell.

Stackability

The Form Stacking Chair and Form Stacking Barstool are stackable, up to 6 pcs.

Maintenance

Polypropylene: Clean with damp cloth.

Textile: Clean with textile or upholstery cleaner.

Leather: Clean with a damp cloth. Use warm water with soap flakes.

Frequent vacuuming with a soft fitting is recommended for both textile and leather to preserve color and appearance.

Accessories

Comes with PE glides.

Felt glides can be purchased separately.

Form Seat Cushion for the Form chair and Form armchair can be purchased separately.

Environmental information

Recyclable

All materials can be recycled. Our chairs are clearly marked with the material and recycle symbol.

REACH

Normann Copenhagen and our suppliers commit to follow the regulations of REACH at any time. According to the regulations of REACH, none of the materials used for the Form chair require registration.

Emission test

ANSI/BIFMA – CDPH 01350

Polypropylene shells

Chair shells are made from recyclable virgin polypropylene (PP), which has the following advantages:

- It consumes low energy during production
- It produces low carbon dioxide emissions, when compared to other polymers
- It can be recycled several times and be used in many different applications
- It is not considered hazardous materials under the OSHA Hazard Communication Standard
- It offers high resistance and durability

Wood bases

Wood bases are made from sustainable forestry, which is FSC-certified and follows the EUTR (EU Timber regulation).

Steel bases

Steel bases are made from cold steel with a powder coating. The powder coating does not contain any VOC (Volatile Organic compounds) and meet the REACH regulation (EC) no. 1907/2006

Upholstery

We offer upholstery in fabrics certified to the EU ECO label and/or OEKO-TEX and fabrics based on recycled materials.
